3. To use the rack in your own projects, simply drag it from the 'Presets' folder into an empty MIDI track or use Live's browser on the left-hand side and navigate to where you moved the download folder.
4. The WAV samples can be loaded from the 'Samples' in exactly the same way as above, as well as loaded into any other WAV compatible software you have.

That's it! Further installation assistance can be found in our [support section](#).
